

24 March 2020

To all our valued customers,

### COUNTRY LOCKDOWN

After the recent announcement from our President and the Government with regard to the compulsory nation-wide lockdown, Strike Technologies will be closing at 16.30pm on Thursday, 26<sup>th</sup> March 2020 and will re-open on Friday, 17<sup>th</sup> April 2020, in order to observe the 21-day lockdown.

During this period our production facility and offices will be closed, however all of our administration, sales, technical support and development staff will be working remotely and will be fully operational.

As a result, the following applies:

- Unfortunately, our production lead times and consequently our delivery lead times will be affected and we will not be able to meet certain delivery commitments for March and for most of April. March deliveries will be completed in April upon our return.
- We will endeavour to update the delivery schedules as accurately as possible but this will / can be subject to any additional or extended lock-downs from the Government as well as any potential delays with logistics.
- All quotation requests may still be sent through the usual channels and these will be attended to as normal. Please see our website [www.strike.co.za](http://www.strike.co.za) for more details.
- Any orders that need to be placed are still welcomed. These will be processed accordingly and will slot into the production schedule.
- Our business development team will be operational and will be providing updated information as it comes to hand.

We do understand and recognise that the unavailability of our product during this period might be disruptive or inconvenience your business, but we are committed to making a contribution, albeit small, to curbing this virus. We will certainly endeavour to complete all outstanding orders as quickly as possible upon our return.

Thank you for your understanding, good luck and stay safe.

Sincerely,

Brent Kinloch  
Managing Director
